De su paciente Sandra Maria Sanchez Cidelet

HOW DO WE DO IT ?
"THE 3 STEPS TREATMENT ALGORITHM"

- **1st Step:** Diagnosis.
- **2nd Step:** Choose right wavelength/ligth source.
- **3rd Step:** Choose right parameters:

Fluence

SPOT

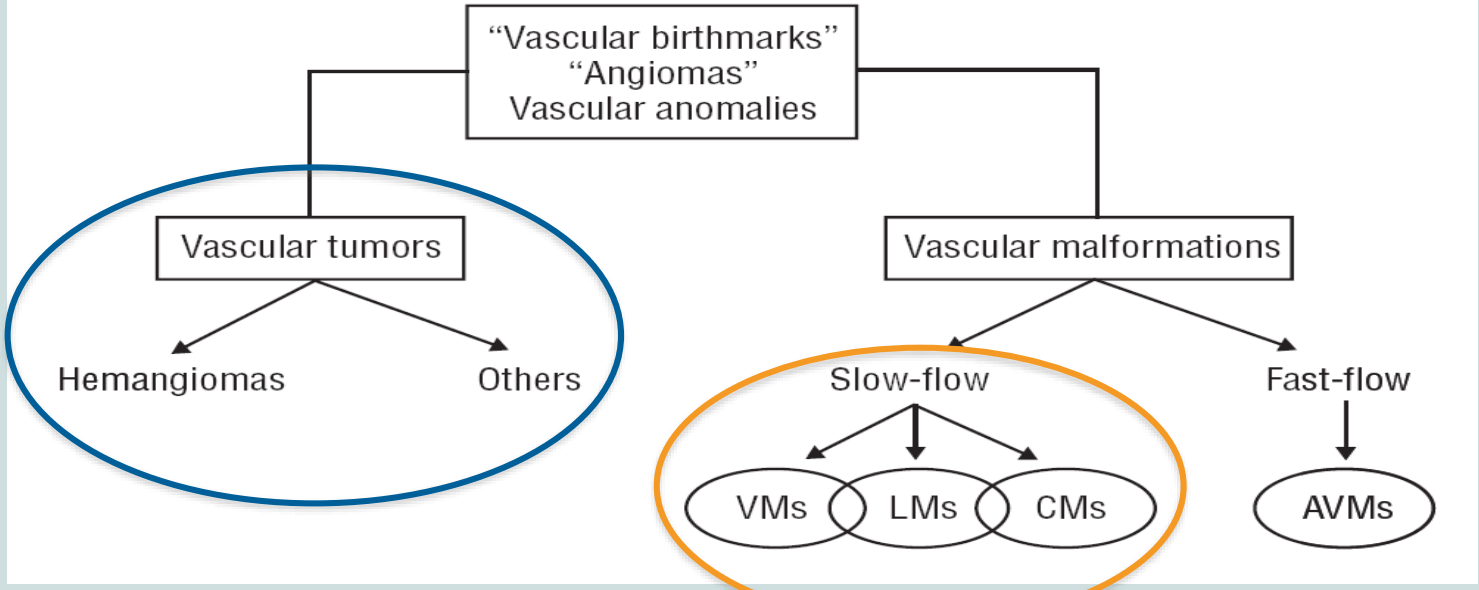
Pulse Duration

Superficial vs Deep vessels.
Vessels diameter.

Derm.Surg.2003;29:35-42

«THE STATE OF THE ART…» TREATMENT ALGORITHM

CONGENITAL VASCULAR LESIONS



HOW DO WE DO IT ?
"THE 3 STEPS TREATMENT ALGORITHM"

- **1st Step:** Diagnosis.
- **2nd Step:** Choose right wavelength/ligth source.
- **3rd Step:** Choose right parameters:

Fluence

SPOT

Pulse Duration

Superficial vs Deep vessels.
Vessels diameter.

Derm.Surg.2003;29:35-42

CONCLUSIONS

1. **Lasers and IPLs are essential tools in a dermatology** practice to treat congenital and acquired vascular lesions.

2. **We get really excellent results** in most patients if you remember that we're treating vessels, no conditions.

3. **And remember:**
   - Diagnosis + C. wavelength + C. parameters
